

Donate Club: Donation listing platform for NGO's

(By Abhinav - 004, Sukaran - 005, Akshit - 008, Avneesh - 010)

Problem Statement

Many people want to donate things and their time for a better cause and NGO's and other organizations need donations. But they often find difficulty finding each other. This is due to an absence of a centralized system connecting the two.

Solution

Our team has come up with an ONLINE PLATFORM that will help to connect the people who want to donate and NGO's who want their donations.

DonateClub will provide a listing platform for donations and services, a marketing channel and an encouraging environment for more donations and help.

NGO's will be able to ADD PRODUCTS they need and people will be able to contact the NGO when they want to DONATE the same. And NGO's will be able to manage the inventory efficiently.

People will be able to LIST PRODUCTS that they want to donate and organizations and individuals can REQUEST to accept that donation.

NGO's will be able to list the SERVICES they need and people who are willing to donate their time will be able to APPLY for the same

NGO's will be able to have a BLOG that can showcase what they have been doing and what are their plans for the future and this may act as their marketing channel.

Users will have BADGES for their donations and each of them will have a profile page SHOWCASING their donations.
